Brief summary about the company	<p>Kantox is a pioneering firm in the FX industry that has developed an innovative online platform that its clients use to convert foreign currencies and make international payments in a more efficient way and for cheaper than the banks. Kantox users can execute spot and forward transactions in 35+ currencies. To date, our 1.700+ clients have exchanged \$2Billion in our platform and save 1.3% on average for each transaction.</p> <p>Kantox was founded by two former Deloitte consultants: Philippe Gelis (CEO) and Antonio Rami (COO). We now have 3 offices: London (headquarters), Barcelona (back-office) and Paris (development). We are growing at light-speed (+900% in 2013, +300% in 2014) and are fueling that growth with the \$20M we raised with some of the best VC firms in Europe. Up to now, Kantox has saved more than \$25M for its clients, but we are just getting started!</p>
